Crownline Nosing
Compliments any style of home, garage or commercial building.

OPTIONS

Brickmould Nosing
Matches wood brickmould dimensions exactly.

3-1/2" add on Flat Casing
Matches 1x4 trim dimensions.
(Attaches to Crownline)

3-1/2" Flat Casing w/ Backband trim
Backband adds a touch of elegance to the Flat Casing.
(Attaches to Crownline)

Rough Openings

Rough Openings are determined by adding 3" to the garage door width and 1-1/2" to the garage door height.

Examples: Garage Door Size 16' wide x 8' high
Rough Opening Size 16'-3" x 8'-1/2"

Garage Door Frame Specifications

Aluminum Thickness .062, 16 gauge, 1/16"

Laminate Stranded Lumber Core

Never paint your garage door frame again!

How to Order Your Frame

Aluminum Clad Garage Door Frame

New Construction & Replacement

1. Determine the garage door width and height.
(example 16' wide x 7' high)
2. Determine the garage wall thickness. (most garage walls are built with 2" x 4" wall studs for a total wall thickness of 5-1/2")
3. Choose the style of the frame.
4. 90 degree corners or clipped corners.
5. Choose the color.
(white, brown, sandstone, green, terratone, bronze, almond, eggshell, beige and wineberry).
6. Place your order,
Example Order:
16'x 7' door, 5-1/2" wall thickness,
square corner, Crownline nosing, white.
